Filming outside of Cape Town

-

We are based in Cape Town, South Africa but We do travel outside of Cape Town to film weddings. You will have to cover flights, accommodation and car rental for 2 video shooters and 1 assistant.

There is also an additional charge of R3000 for time away from family and risk of travelling with expensive filming gear. flights will have to be a day before the Wedding and return flight the day after the wedding. Client can opt to book everything themselves or request to get a quote from us and pay the amount needed to us directly to make the necessary bookings.

Important Information

-
- Your booking is only confirmed once a minimum of 50% booking fee of the final amount has been paid. We will not film if this fee has not been paid and we do not hold the date for you unless this fee is paid. Please be advised that our "filming clock" starts ticking immediately upon arrival at the (first) location we will be filming at.
- For Muslim Weddings, we always start filming the Wedding from the Nikkah i.e we do not come to the homes before the Nikkah.
-
- Unless otherwise stated, our overtime rate per hour is R2000. This amount is due immediately after the wedding has been filmed.
- Please note that even if the time limit has not been reached, we do not cover the home after the reception unless the add on has been booked as well.
- We need at least 1 hour with you as a couple on the wedding day location shoot.
- All our fuel costs are included in all packages. We don't charge extra for this.
- a full film is still edited like a highlight film, the only difference being that when the ceremony/nikkah and reception is shown, it is shown in full.
